Is the 339 response executable? [YES](#)

End Item Application:

43NAIRCRAFT, HORNET F/A-18;Z9NAIRCRAFT, F/A-18, A - D, E/F, G (GROWLER)

Next Higher Assembly:

UNKNOWN

DLA Problem Statement:

THIS IS CSI ITEM IN 3/C. NO 339 PROVIDED BEFORE. THE CURRENT TIR SHOWS CAGE 14711 AS THE SOLE SOURCE. PER JDRS THE BOEING CAGE 76301 IS THE ONLY SOURCE WHICH IS NOT MATCH WITH THE TIR. REQUEST ESA TO PROVIDE UPDATE TDP & SOURCE FOR PROCUREMENT.

DLA Actions to Date:

TIR, 339, JDRS.

DLA Questions:

- 1) WHAT IS THE CORRECT WEAPONS SYSTEM CODING?
- 2) WHAT IS THE CORRECT AMC/AMSC CODING?
- 3) WHAT IS THE CORRECT CRITICALITY CODING?
- 4) WHO ARE THE APPROVED SOURCES?
- 5) ARE THERE ANY SPECIAL QA REQUIREMENTS?
- 6) IS THERE ANY ENGINEERING DATA AVAILABLE?
- 7) SHOULD THIS NSN BE CANCELLED?
- 8) IS THE FSC CORRECT?

DLA Recommendations:

ASSURANCE REQUIRMENTS BE PROVIDED Request updated TDP. RECOMMEND THAT THE ABOVE REQUESTED DRAWINGS, SUPPORTING DOCUMENTS AND ANY QUALITY.

List Attachments:

TIR

ESA Responses to all DLA Questions:

This item was determined to be a Critical Safety Item (CSI). Approved sources of supply are listed in JDRS CIM. No QAP is required when procuring directly from OEM/Prime sources of supply. Any new source proposing to manufacture the subject item should submit a complete Source Approval Request (SAR) in accordance with the JACG Source Approval and Management Handbook. QAP and CDRL will be provided if/when an alternate source is approved. The AMC/AMSC is 3C.

GOVERNMENT SURPLUS MATERIAL

C04 Unused Former Government Surplus Property (SEP 2016) To be considered for award, the offeror must complete and submit the following representation with their offer. Additional supporting documentation to demonstrate the surplus material offered was previously owned by the Government and meets solicitation requirements must be provided within 24 hours of request by the contracting officer.

(1) The material is new, unused, and not of such age or so deteriorated as to impair its usefulness or safety. Yes X No

The material conforms to the technical requirements cited in the solicitation (e.g., Commercial and Government Entity (CAGE) Code and part number, specification, etc.). Yes X No

The material conforms to the revision letter/number, if any is cited. Yes X No Unknown
If No; the revision does not affect form, fit, function, or interface. Yes No Unknown

The material was manufactured by:

(Name): RSA ENGINEERED PRODUCTS, LLC

(Address): 110-A WEST COCHRAN STREET, SIMI VALLEY, CA, 93065-6228

(2) The offeror currently possesses the material Yes X No If yes, the offeror purchased the material from a Government selling agency or other source? Yes No X If yes, provide the following:

Government Selling Agency:

Contract Number:

Contract Date: (Month, Year):

Other Source:

Address:

Date Acquired: (Month/Year)

(3) The material has been altered or modified. Yes No X If Yes, the offeror must attach or forward to the contracting officer a complete description of the alterations or modifications.

(4) The material has been reconditioned. Yes No X

If Yes, (i) the price offered includes the cost of reconditioning /refurbishment. Yes No ; and (ii) the offeror must attach or forward to the contracting officer a complete description of any work done or to be done, including the components to be replaced and the applicable rebuild standard.

The material contains cure-dated components. Yes ☐ No ☐

If Yes, the price includes replacement of cure-dated components. Yes ☐ No ☐

(5) The material has data plates attached. Yes ☐ No ☒ If Yes, the offeror must state below all information contained thereon, or forward a copy or facsimile of the data plate to the contracting officer. _____

(6) The offered material is in its original package. Yes ☒ No ☐ If yes, the offeror has stated below all original markings and data cited on the package; or has attached or forwarded to the contracting officer a copy or facsimile of original package markings:

Contract Number N0038391CS037

NSN 1660-01-278-9256

CAGE Code 14711

Part Number 30A358-101

Other Markings/Data _____

(7) The offeror has supplied this same material (National Stock Number) to the Government before: Yes ☐ No ☒

If Yes: (i) the material being offered is from the same original Government contract number as that provided previously. Yes ☐ No ☐; and (ii) state below the Government Agency and contract number under which the material was previously provided:

Agency _____

Contract Number _____

(8) The material is manufactured in accordance with a specification or drawing. Yes ☒ No ☐

If Yes, (i) the specification/drawing is in the possession of the offeror. Yes ☐ No ☒; and (ii) the offeror has stated the applicable information below, or forwarded a copy or facsimile to the contracting officer. Yes ☐ No ☐

Specification/Drawing Number _____

Revision (if any) _____

Date _____

(9) The material has been inspected for correct part number and for absence of corrosion or any obvious defects. Yes ☒ No ☐

If Yes, (i) material has been re-preserved. Yes ☐ No ☒ ;

(ii) material has been repackaged. Yes ☐ No ☒ ;

(iii) percentage of material that has been inspected is 100 %; and/or

(iv) number of items inspected is _____; and

(v) a written report was prepared. Yes ☐ No ☒ ; and

if Yes, the offeror has attached the written report or forwarded it to the contracting officer.

Yes ☐ No ☐ The offeror agrees that in the event of award and notwithstanding the provisions of the solicitation,

Inspection and acceptance of the surplus material will be performed at source or destination subject to all applicable provisions for source or destination inspection.

The offeror has attached or forwarded to the contracting officer one of the following, to demonstrate that the material being offered was previously owned by the Government (offeror check which one applies):

☐ For national or local sales, conducted by sealed bid, spot bid or auction methods, a solicitation/Invitation For Bid and corresponding DLA Disposition Services Form 1427, Notice of Award, Statement and Release Document.

☐ For DLA Disposition Services Commercial Venture (CV) Sales, the shipment receipt/delivery pass document and invoices/receipts used by the original purchaser to resell the material.

☒ When the above documents are not available, or if they do not identify the specific NSN being acquired, a copy or facsimile of all original package markings and data, including NSN, commercial and Government entity (CAGE) code and part number, and original contract number. (This information has already been provided in paragraph (c)(6) of this clause. Yes ☒ No ☐.)

☐ When none of the above are available, other information to demonstrate that the offered material was previously owned by the Government.

Describe and/or attach. This only applies to offers of Government surplus material. Offers of commercial surplus, manufacturer's overruns, residual inventory resulting from terminated Government contracts, and any other material that meets the technical requirements in the solicitation but was not previously owned by the Government will be evaluated in accordance with the DLAD procurement note L04, Instructions to offeror for Part Numbers items.

If requested by the contracting officer, the offeror shall furnish sample units, in the number specified, to the contracting officer or to another location specified by the contracting officer, within 10 days after the contracting officer's request.

The samples will be furnished at no cost to the Government. All such samples not destroyed in evaluation will be returned at the offeror's expense. The samples will be evaluated for form, fit, and function with subassembly, assembly, or equipment with which the items are to be used. End items furnished under any contract award to the offeror furnishing the samples can include the returned samples, and all acceptable end items will have a configuration identical to the samples. If specific tests of the samples' performance are made by the Government, the offeror will be furnished the results of such tests prior to a contract being entered into. In addition to any other inspection examinations and tests required by the contract, the

performance of the end items will be required to be as good as that of the samples submitted. In the event of award, the contractor will be responsible for providing material that is in full compliance with all requirements in the contract or order. The surplus material to be furnished must meet the requirements of the current contract or order, whether or not the material met Government requirements in existence at the time the material was initially manufactured or sold to the Government.

(6) The offered material is in its original package. Yes ☒ No ☐ If yes, the offeror has stated below all original markings and data cited on the package; or has attached or forwarded to the contracting officer a copy or facsimile of original package markings:

Contract Number N0038391CS037

NSN 1660-01-278-9256

CAGE Code 14711

Part Number 30A358-101

Other Markings/Data _____

(7) The offeror has supplied this same material (National Stock Number) to the Government before: Yes ☐ No ☒

If Yes: (i) the material being offered is from the same original Government contract number as that provided previously. Yes ☐ No ☐; and (ii) state below the Government Agency and contract number under which the material was previously provided:

Agency _____

Contract Number _____

(8) The material is manufactured in accordance with a specification or drawing. Yes ☒ No ☐

If Yes, (i) the specification/drawing is in the possession of the offeror. Yes ☐ No ☒; and (ii) the offeror has stated the applicable information below, or forwarded a copy or facsimile to the contracting officer. Yes ☐ No ☐

Specification/Drawing Number _____

Revision (if any) _____

Date _____

(9) The material has been inspected for correct part number and for absence of corrosion or any obvious defects. Yes ☒ No ☐

If Yes, (i) material has been re-preserved. Yes ☐ No ☒ ;

(ii) material has been repackaged. Yes ☐ No ☒ ;

(iii) percentage of material that has been inspected is 100 %; and/or

(iv) number of items inspected is _____; and

(v) a written report was prepared. Yes ☐ No ☒ ; and

if Yes, the offeror has attached the written report or forwarded it to the contracting officer.

Yes ☐ No ☐ The offeror agrees that in the event of award and notwithstanding the provisions of the solicitation,

Inspection and acceptance of the surplus material will be performed at source or destination subject to all applicable provisions for source or destination inspection.

The offeror has attached or forwarded to the contracting officer one of the following, to demonstrate that the material being offered was previously owned by the Government (offeror check which one applies):

☐ For national or local sales, conducted by sealed bid, spot bid or auction methods, a solicitation/Invitation For Bid and corresponding DLA Disposition Services Form 1427, Notice of Award, Statement and Release Document.

☐ For DLA Disposition Services Commercial Venture (CV) Sales, the shipment receipt/delivery pass document and invoices/receipts used by the original purchaser to resell the material.

☒ When the above documents are not available, or if they do not identify the specific NSN being acquired, a copy or facsimile of all original package markings and data, including NSN, commercial and Government entity (CAGE) code and part number, and original contract number. (This information has already been provided in paragraph (c)(6) of this clause. Yes ☒ No ☐.)

☐ When none of the above are available, other information to demonstrate that the offered material was previously owned by the Government.

Describe and/or attach. This only applies to offers of Government surplus material. Offers of commercial surplus, manufacturer's overruns, residual inventory resulting from terminated Government contracts, and any other material that meets the technical requirements in the solicitation but was not previously owned by the Government will be evaluated in accordance with the DLAD procurement note L04, Instructions to offeror for Part Numbers items.

If requested by the contracting officer, the offeror shall furnish sample units, in the number specified, to the contracting officer or to another location specified by the contracting officer, within 10 days after the contracting officer's request.

The samples will be furnished at no cost to the Government. All such samples not destroyed in evaluation will be returned at the offeror's expense. The samples will be evaluated for form, fit, and function with subassembly, assembly, or equipment with which the items are to be used. End items furnished under any contract award to the offeror furnishing the samples can include the returned samples, and all acceptable end items will have a configuration identical to the samples. If specific tests of the samples' performance are made by the Government, the offeror will be furnished the results of such tests prior to a contract being entered into. In addition to any other inspection examinations and tests required by the contract, the

performance of the end items will be required to be as good as that of the samples submitted. In the event of award, the contractor will be responsible for providing material that is in full compliance with all requirements in the contract or order. The surplus material to be furnished must meet the requirements of the current contract or order, whether or not the material met Government requirements in existence at the time the material was initially manufactured or sold to the Government.

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million (1990–1999) and the number of people in the public sector has increased by 2.5 million (1990–1999) (Department of Health 2000).

There is a growing emphasis on the need to improve the efficiency of the public sector and to ensure that the public sector is able to deliver the best possible value for money. This has led to a number of initiatives, including the introduction of the Health Service Act 1999, the Health Service Act 2001, and the Health Service Act 2004.

The Health Service Act 1999 introduced a number of changes to the way in which the public sector is run, including the introduction of the Health Service Commissioning Board (HSCB) and the Health Service Commissioning Board (HSCB) (Department of Health 2000).

The Health Service Act 2001 introduced a number of changes to the way in which the public sector is run, including the introduction of the Health Service Commissioning Board (HSCB) and the Health Service Commissioning Board (HSCB) (Department of Health 2000).

The Health Service Act 2004 introduced a number of changes to the way in which the public sector is run, including the introduction of the Health Service Commissioning Board (HSCB) and the Health Service Commissioning Board (HSCB) (Department of Health 2000).

The Health Service Act 2004 introduced a number of changes to the way in which the public sector is run, including the introduction of the Health Service Commissioning Board (HSCB) and the Health Service Commissioning Board (HSCB) (Department of Health 2000).

The Health Service Act 2004 introduced a number of changes to the way in which the public sector is run, including the introduction of the Health Service Commissioning Board (HSCB) and the Health Service Commissioning Board (HSCB) (Department of Health 2000).

The Health Service Act 2004 introduced a number of changes to the way in which the public sector is run, including the introduction of the Health Service Commissioning Board (HSCB) and the Health Service Commissioning Board (HSCB) (Department of Health 2000).

The Health Service Act 2004 introduced a number of changes to the way in which the public sector is run, including the introduction of the Health Service Commissioning Board (HSCB) and the Health Service Commissioning Board (HSCB) (Department of Health 2000).

The Health Service Act 2004 introduced a number of changes to the way in which the public sector is run, including the introduction of the Health Service Commissioning Board (HSCB) and the Health Service Commissioning Board (HSCB) (Department of Health 2000).
